

PROVEN & PATENTED MOTOR CONDITIONING MONITORING WORKSHOP

Complimentary

6TH AUGUST 2015. 9:30AM - 1:30PM
CTI RESOURCES

No. 26, Jalan Kota Raja E27/E, Hicom Town Centre, Seksyen 27, 40400 Shah Alam, Selangor D.E., Malaysia

ARTESIS MOTOR CONDITIONING MONITORING (MCM)

Artesis MCM is a new approach to condition monitoring, providing all the benefits without the high complication and cost of traditional systems. It monitors the condition of equipment driven by an electric motor, effectively using the motor itself as a sophisticated transducer.

Artesis MCM uses advanced, NASA-developed technology to provide a self-learning capability in a compact, affordable, panel-mounted instrument. It automatically teaches itself about the normal operation environment of your equipment so that it can accurately identify and diagnose faults long before they become a threat. This greatly reduces the specialist diagnostic skills required of the user, making the benefits of condition monitoring available to many groups who have considered it too difficult in the past.

WHY SHOULD YOU ATTEND?

This workshop gives you an understanding of the Model Based Fault Detection Technology and its features that can also be utilized to start an energy efficiency condition monitoring program. Artesis MCM provides mechanical and electrical anomaly detection as well as electrical parameters such as voltage and current imbalances and power factor. It can also detect changes in the load the motor is experiencing due to anomalies in the driven equipment or process such as cavitations or plugged filters and screens.

WHO SHOULD ATTEND?

- Maintenance Managers, Engineers & Supervisors
- Electrical Managers, Engineers & Supervisors
- Operations Managers, Engineers & Supervisors

PROVEN & PATENTED MOTOR CONDITIONING MONITORING WORKSHOP

6TH AUGUST 2015. 9:30AM - 1:30PM
CTI RESOURCES

No. 26, Jalan Kota Raja E27/E, Hicom Town Centre, Seksyen 27,
40400 Shah Alam, Selangor D.E., Malaysia

WORKSHOP DETAILS

- 9:30am Registration & welcome coffee
- 10:00am Keynote address
- 10:30am **Session 1**
Artesis MCM - A proven and Patented Predictive Maintenance System
- Session 2**
Artesis Mangement Toolkit (AMT) A unique Instrument for Online Motor Condition Assesment
- 11.45am Q&A Session
- 12noon Workshop Conclude
- 12:15pm Lunch
- 1:30pm End of Programme

The organiser reserves the right to alter the content and sequence of the programme in the best interests of the event.
